

SMOKEFREE IS SMOKEFREE

Nobody should have to breathe secondhand marijuana smoke or vapor at work, in public, or where they live.

Smoke is smoke—regardless of the device or description. Secondhand marijuana smoke contains hundreds of chemicals—just like secondhand tobacco smoke. Many of the chemicals in secondhand marijuana smoke are **toxic and contain hazardous fine particles that pose a significant health risk to non-smokers.**

- More laws legalizing marijuana = increased exposure to secondhand marijuana smoke and vapor.
- Employees & patrons protected by current smokefree laws may have their health put at risk by exposure to marijuana smoke or vapor. Marijuana smoking or vaping should not be allowed in smokefree spaces.
- The commercialized marijuana industry looks and sounds a lot like Big Tobacco. Together they are working to circumvent progress on smokefree air.
- The vast majority of the population are non-smokers. Smokefree means smokefree—no cigarettes and cigars, e-cigarette use, or marijuana smoking or vaping.

SECONDHAND MARIJUANA SMOKE

contains many of the same **CANCER-CAUSING SUBSTANCES** and **TOXIC CHEMICALS** as secondhand tobacco smoke, including:

3 times the amount of **ammonia**

significant levels of **mercury, lead, formaldehyde, benzene, hydrogen, cyanide, & toluene.**

PROTECT HEALTH

Protect workers and the public from exposure to secondhand smoke by prohibiting marijuana smoking in all workplaces and enclosed public places.

As of April 2024, 1025 localities and 39 states/territories/commonwealths restrict marijuana use in some or all smokefree spaces. Of these, 562 localities and 22 states/territories/commonwealths prohibit smoking and vaping of recreational and medical marijuana in one or more of the following venues: non-hospitality workplaces, restaurants, bars, and/or gambling facilities.
