

## U.S. Smokefree Casinos and Gambling Facilities

April 1, 2020

### State-regulated Gambling Facilities

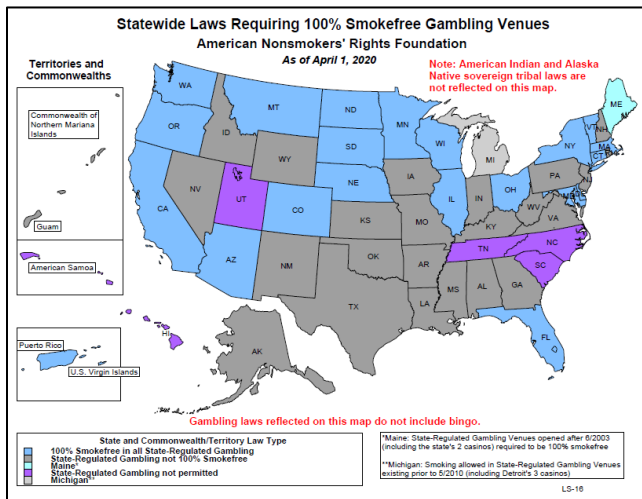

There are at least **783** state-regulated gambling facilities that are required to be 100% smokefree indoors. Of the casinos and other facilities listed below, most are required to be smokefree by state law. Additionally, gambling facilities marked with an \* are not required by law to be smokefree, but are smokefree by their own corporate policy.

Vermont and Wisconsin's smokefree laws cover state-regulated gambling facilities, but neither state currently has any such facilities. Maine's smokefree law requires state-regulated gambling facilities opened after July 1, 2003 to be 100% smokefree (including the state's 2 casinos), but prior facilities may have a smoking room. Michigan's smokefree law allows smoking in state-regulated gambling venues existing prior to 5/2010 (including Detroit's 3 casinos).

State-regulated gambling facilities are not permitted in American Samoa, Hawaii, North Carolina, South Carolina, Tennessee, and Utah, although some permit bingo and/or lottery.

→ *See page 21 for American Indian Sovereign Tribal Gaming Facilities.*

^ Maine law requires state-regulated gambling facilities opened after July 1, 2003 to be 100% smokefree (including the state's 2 casinos), but prior facilities may have a smoking room

\* Gambling facility is not required by law to be smokefree, but is smokefree by own corporate policy.

# Illinois now has more than 18,000 video gaming slot machines in bars and other establishments. Like casinos, these venues are all required to be smokefree indoors per state law.

## **American Indian Sovereign Tribal Gaming Facilities**

Gambling facilities are smokefree by their own sovereign tribal policy.
