1. **Hartsfield-Jackson Atlanta International Airport (ATL)** – **E-cigarette use is not permitted indoors**. **Smoking is permitted in 13 smoking rooms** throughout the airport, as well as in selected food and beverage areas, which have increased in recent years. The airport plans to convert 9 of the smoking rooms into cigar shops that allow smoking. As of Internal tobacco industry documents show that many of these rooms were designed, constructed, and financed by Philip Morris front groups as part of a sophisticated airport strategy to protect millions of dollars in annual profits by enabling product consumption. Promoting the social acceptability of smoking was also an important objective for the tobacco industry in the Hartsfield Airport: construction of the smoking rooms was completed in time for the 1996 Summer Olympics, held in Atlanta. This drew millions of passengers from around the world through Hartsfield and past its newly built smoking lounges.
2. **Los Angeles International Airport (LAX)** – **Completely smokefree indoors** and **e-cigarette use is not permitted indoors**. Smoking is permitted in three *outdoor* smoking areas located past security gates at the Tom Bradley International Terminal, Terminal 2, and Terminal 7.
