Heart Disease and Secondhand Smoke: Bibliography
Heart Disease and Secondhand Smoke

Research Bibliography

This partial bibliography of studies is provided for informational purposes only. It should not be considered to replace medical advice from your physician, nor should it be considered as a list of every existing study on this topic. The ANR Foundation is unable to provide copies of any of the studies. Links to either the study’s abstract or full text are provided when available.

The first part of this bibliography lists studies into the effect of secondhand smoke exposure on the heart.

The second part lists studies into the impact of smokefree air laws on heart disease.

Health Effects of Secondhand Smoke Exposure on Heart Disease

Wang, D.; Juonala, M.; Viikari, J.SA.; Wu, F.; Hutri-Kähönen, N.; Raitakari, O.T.; Magnusson, C.G., “Exposure to parental smoking in childhood is associated with high c-reactive protein in
