

SMOKEFREE IS SMOKEFREE

Nobody should have to breathe secondhand marijuana smoke at work, in public, or where they live.

Smoke is smoke — regardless of the device or description. Secondhand marijuana smoke contains hundreds of chemicals — just like secondhand tobacco smoke. Many of the chemicals in secondhand marijuana smoke are **toxic and contain hazardous fine particles that pose a significant health risk to non-smokers.**

- More laws legalizing marijuana = increased exposure to secondhand marijuana smoke.
- Employees and patrons protected by current smokefree laws may have their health put at risk by exposure to marijuana smoke. Marijuana smoking should not be allowed in smokefree spaces.
- The commercialized marijuana industry looks and sounds a lot like Big Tobacco. Together they are working to circumvent progress on smokefree air.
- The vast majority of the population are non-smokers. Smokefree means smokefree — no cigarettes and cigars, e-cigarette use, or marijuana use.

SECONDHAND MARIJUANA SMOKE

contains many of the same **CANCER-CAUSING SUBSTANCES** and **TOXIC CHEMICALS** as secondhand tobacco smoke, including:

3 times
the amount of
ammonia

significant levels of **mercury, lead, formaldehyde, benzene, hydrogen cyanide, & toluene.**

PROTECT HEALTH

Protect workers and the public from exposure to secondhand smoke by prohibiting marijuana smoking in all workplaces and enclosed public places.

As of October 2018, there are approximately **396 municipalities** and **15 states** that restrict marijuana use in smokefree spaces in some manner. **Protect smokefree workplace laws — include marijuana in your policy!**
