

100% Smokefree U.S. Hospital Campuses and Psychiatric Facilities

“A tobacco free campus fits with our mission as advocates for the health of our patients, their families and our employees. The expansion of our tobacco-free policy is another way our hospital is demonstrating its commitment to making our community healthier. Our hope is that this policy will help safeguard the health of our patients, employees and visitors.”

— David Castleberry, CEO
Upson Regional Medical Center

INDIVIDUAL HOSPITAL POLICIES – HOSPITAL GROUNDS (QUARTERLY UPDATES)

(See Next Page)

INDIVIDUAL HOSPITAL POLICIES – HOSPITAL GROUNDS (UPDATED JANUARY 1, 2025)

Hospitals, clinics, and psychiatric facilities are further promoting the health and safety of their communities by voluntarily adopting 100% smokefree grounds policies to protect employees, patients, and visitors from secondhand smoke exposure. **This is a partial list. If you know of medical or healthcare facilities that have 100% smokefree grounds and are currently not listed, please contact ANR Foundation at info@no-smoke.org or (510) 841-3032 with that information. In addition, American Indian and Alaska Native sovereign Tribal policies are not reflected on this list.**

These policies have been adopted but are not necessarily yet in effect. Please contact the hospital itself to verify the status of its policy.

+ = Smokefree policy extends to all medical facilities owned and operated by the health system.

The following **4 national** hospitals, clinics, insurers, and health service companies have adopted 100% smokefree grounds policies nationwide which extend to all their respective facilities, campuses, and office buildings.

Kaiser Permanente
Mayo Clinic
SSM Health Care
CIGNA Corp.

At least **4,172 local and/or state/territory/commonwealth** hospitals, healthcare systems, and clinics have adopted **100% smokefree campus grounds** policies that protect all employees, visitors, and patients from secondhand smoke exposure within their campuses – including but not limited to facility buildings, outdoor areas, and parking lots. While it has become relatively common for hospitals and health facilities to have policies requiring that all buildings be smokefree indoors, this list only includes hospitals and health facilities with entirely smokefree campuses.

INDIVIDUAL PSYCHIATRIC FACILITY POLICIES (QUARTERLY UPDATES) (See Next Page)

INDIVIDUAL PSYCHIATRIC FACILITY POLICIES (UPDATED JANUARY 1, 2025)

At least **160** psychiatric facilities have adopted **100% smokefree building and indoor areas** policies.

If a psychiatric facility's policy also includes all outdoor areas, it will be noted as a *campus-wide policy (+)*.

This is a partial list. If you know of medical or healthcare facilities that have 100% smokefree grounds and are currently not listed, please contact ANR at anr@no-smoke.org or (510) 841-3032 with that information. In addition, **American Indian and Alaska Native sovereign tribal policies are not reflected on this list.**

These policies have been adopted but are not necessarily yet in effect. Please contact the hospital itself to verify the status of its policy.

In creating this document, the American Nonsmokers' Rights Foundation relied on information found on the Internet, information in news articles, and information obtained from other tobacco prevention agencies. This information is accurate to the best of our knowledge; however, there may be some discrepancies due to incomplete information.

ANR Foundation maintains a database of over 20,000 tobacco control laws in nearly 6,000 communities. We catalog laws regulating smoking and vaping in public places, e-cigarette and marijuana sales, and more. We work hard to get our data to researchers doing good work. For information about licensing our datasets, contact TobaccoLawsDatabase@no-smoke.org.
